

An Improved Spm Based Contact Tester For The Study Of

an improved svm-based cognitive diagnosis algorithm for ... - a smart grid. in this paper, an improved support vector machine (svm)-based cognitive diagnosis algorithm is proposed to cognize the current operation state of distribution grid by classifying the disturbance into different operation states. based on the current measurement in distribution grid, wavelet-packet time entropy is developed

an improved spm-based contact tester for the study of ... - an improved scanning probe microscope based contact tester has been designed, constructed and used for cyclic testing of various metal contacts. the tester is designed for contact material evaluation, especially for metal-contact mems switch applications, and is capable of simultaneous measurements of contact force and resistance.

an improved theoretical p-value for spms based on discrete ... - an improved theoretical p-value for spms based on discrete local maxima k.j. worsley august 9, 2005 ... where r is the number of resels and ec is the euler characteristic density of the spm (worsley et al., 1992, 1996). the resels of a search region in d dimensions is $r = v = fwhmd$ (3)

multi-class svm based on improved voting strategy and its ... - range of 0~1. thirdly, a novel probability voting is improved by considering the conventional voting and the adjustment function. finally, 5-class svms-based fault diagnosis models for gearbox respectively with maxwins majority voting, fsm and the presented strategy are tested. all the tests and data indicate that multi-class svms the

improved fpga-based dead time compensation for svm inverters - this paper describes the implementation of an improved fpga-based dead time compensation, where the current signs are sampled just before each programmed switching edge. as a result, the dead time effect, that is the worst inverter non-ideality, is exactly compensated within the same switching period.

an improved svm based on similarity metric - an improved svm based on similarity metric chaoyong wang (college of computer science and technology, jilin university key laboratory of symbol computation and knowledge engineering of ministry of education, changchun 130012, china, and department of fundamental sciences jilin teacher's institute of engineering and technology changchun 130021 ...

supplemental poverty measure thresholds and noncash benefits - improved spm thresholds that reflect values of commodities and services purchased by/made available to consumer units with resources note: thus far, spm thresholds used by the census bureau for the regular publication of spm poverty statistics do not account for in-kind transfers or noncash benefits.

emotion recognition of emg based on improved l-m bp neural ... - the l-m algorithm improved bp neural network classifier and support vector machine (svm) for emotion recognition. ii. recognition methods a. l-m algorithm based on improved bp neural network bp neural network is fully named as the back-propagation network, that is, back-propagation network. it is a forward multi-layer network, which uses the error

image classification based on improved vlad - researchgate - image classification based on improved vlad ... in the image classification based on spm model, there are five steps, i.e., local descriptor extraction, dictionary learning, feature coding ...

scene classification using local and global features with ... - based on this spm framework, many extensions have been proposed. in [52], an improved spm method was developed by generalizing vector quantization (vq) to sparse coding, followed by multiscale spatial max

elderly poverty in the united states in the 21 st century ... - elderly poverty in the united states in the 21st century: exploring the role of assets extensive. the new supplemental poverty measure (spm) explicitly takes into account medical ... elderly income and poverty based on the improved spm but that incorporate assets and savings in a rigorous manner.

supplemental poverty measure thresholds and noncash benefits - the supplemental poverty measure (spm) statistics, released by the u.s. census bureau since 2011, use resources that account for federal inkind (noncash) benefits for food, rent, and - utilities; however, the spm thresholds are based on food, clothing, shelter, and utilities (fcsu)

xilinx software development kit (sdk) user guide - xilinx software development kit (sdk) user guide system performance analysis ug1145 (v2016.2) june 14, 2016 ... provides improved run-times over other modeling environments, as well as increased ... spm-based model can provide a much stronger assurance that the final design will

the supplemental poverty measure and moop - the supplemental poverty measure and moop kathleen s. short u.s. census bureau additional and improved measures of the affordability of medical care ... supplemental poverty measure (spm) thresholds based on spending from ce data for fcsu at bls

supppp ylemental poverty measure (spm): threshold issues - supppp ylemental poverty measure (spm): threshold issues thesia i. garner and marisa gudrais division of price and index number research office of prices and living conditions
